

CLARESHOLM REVIEW

VOLUME 5.

CLARESHOLM, ALTA., APR. 10, 1908.

NO. 6

DISTRICT COURT

First Sitting in Claresholm. Opened on Wednesday

The first session of the District Court for this district was opened at 10 a.m. in the L.O.C. Hall Wednesday last. Judge A. A. Carpenter presiding. On the opening of the court His Honor was addressed on behalf of the Claresholm bar by H. O. Haslam, and on behalf of the Mayor and town council by E. W. Frost. The addresses of each were short but contained in well chosen remarks. His Honor in a short reply showed his appreciation of the reception tendered him.

The ordinary business of the court was then proceeded with. Inspector Camies of the B.N.W.M.P. was present throughout the sessions.

The following was the docket:

Urgand vs Schell

Judgment for Plaintiff. Defendant in person. J. H. Watt for Plaintiff.

Urgand vs Berg

Judgment for Plaintiff. H. O. Haslam for Plaintiff.

Toskey and Robertson vs Redfield

Judgment for Plaintiff. H. O. Haslam for Plaintiff.

Porter vs Heldmiller & Carlson

Judgment reserved. H. O. Haslam for Plaintiff. McDonald for Defendant.

Symonds vs Gunderson

Judgment reserved. McDonald for Plaintiff. H. O. Haslam for Defendants.

Smallpox.

Gordon Barrett, aged 15, brother of J. W. Barrett, arrived here from Boise City, Idaho, Monday morning on a visit to his brother. He was not feeling very well at the time, so Monday evening he went to a doctor who at first told him he had smallpox, took him to Dr. Stevens, the medical health officer. Shortly afterwards he was placed in the isolation hospital with his brother, who has had the smallpox, to look after him. The home of W. W. McAllister, where he stayed prior to going to the hospital, has not been quarantined, all inmates have been vaccinated. The quarantine regulations being rigidly enforced and it is expected that no more cases will develop.

Band Re-organized.

The Claresholm Brass Band has been re-organized and practice has already been commenced. A meeting resulting in this was held in the Council chamber last Monday night. Mr. H. L. Walsh has accepted the leadership of the band and it is expected that the boys will all do their best and it will not be long until Claresholm has one of the best bands in Alberta.

Banana may be raised in tub.

Mr. Asquith now Premier of Great Britain.

Wizard Luther Burbank of California, originally a Massachusetts man, is perfecting two new fruits, which he promises will greatly add to the profits of New England farmers and will solve the problem of New England's abandoned farms. He announces that he is now perfecting a new kind of delicious banana, so hardy that it will come to perfect fruition anywhere in New England, and that New England farmers will soon be raising spinylocactus mictus for its fruit, an edible prickly pear.

It is quite within the range of possibility, he declares, that Boston in the future will become the home of the banana and that New England farms will be studded with banana groves, and her granaries filled with flour, produced from these bananas, which will prove more nutritious and useful than that produced from wheat.

Burbank declares that the time is coming when Boston is going to raise her own banana crop. The California agriculturist plans to raise in New England a banana which will not be damaged by frost, and which will be a banana which will contain a natural, creamy, juicy pulp instead of the soft and mealy pulp of the banana ripened artificially.

The great value of the banana which Burbank is striving to get into New England is that it is a fruit which is more nutritious, as sweet and that the green fruit, when dried and powdered, makes a nutrition and excellent flour. Not only will it prove more nutritious and more profitable than a like amount of wheat flour, but the yield per acre from the planting of the banana will be greater than if grain were sown.

Much has been said about the blessings which should be poured upon the man who found a profitable way of utilizing the many abandoned farms of New England. Burbank's latest fruit-creation may solve the problem.

Fruit-raisers, familiar with Burbank's latest creation, the banana, think that these abandoned farms will prove just the right place for raising bananas, when Burbank has achieved success, and that New England is destined to become the granary or bananaary of America.

There is no work connected with raising of the Burbank fruit, other than the naming and walls for the annual harvest.

Burbank has already met with success in gobbling the cactus plant of its territory by taking away its prickly spines and converting its fruit, a prickly pear, into a delicacy, which he promises will become a national favorite.

He has also converted the cactus into a spinylocactus mictus bearing a new kind of delicious pear, the California island bid his eye to New England as an appropriate place for cultivating the new plant.

LONDON, April 5.—It was officially announced to-night that the king had accepted the resignation of Sir Henry Campbell-Bannerman, the British prime-minister. Sir Henry's condition remains unchanged, according to the physician's bulletin printed today. The King, in telegrams, like those sent to the premier's resignation, conveyed an expression of his regret and esteem with the best wishes for Sir Henry's recovery. No further official announcement with regard to the cabinet changes has been made, but the king has summoned Herbert H. Asquith, chancellor of the exchequer, and the latter will start for Biarritz, where the king isjourning, probably tomorrow afternoon.

The chancellor, who has been sent to replace Sir Henry Campbell-Bannerman, called a meeting of the cabinet this morning to submit the premier's resignation and discuss the course of business.

Baseball League in the South.

The Southern Alberta Baseball League will likely be a "go" now as the Medicine club has at last got organized and is preparing to enter a team. A convention for the purpose of organizing the league will be held at the Hotel Alberta, to which each club will send two delegates. Several towns among the Crow and C. and E. have strong teams this year and a good league should be organized.

Business Change.

Auderson & Hunter have sold their butcher business to Messrs. John Wells and Jas. McDonald. Mr. Wells and Mr. McDonald have been conducting the business for Auderson & Hunter. Mr. McDonald is soon to return to the old thunders here. We wish them every success in their new venture.

DIED.

Last Saturday morning Mrs. Simpson died at her home east of Claresholm. Mrs. Simpson was born in Kent County, Ontario, where she has lived most of her life. She came with her family about year ago to the west and since then has been living on a farm about two and a half miles east of here. She leaves to mourn her loss, two sons, Henry and Edward and two daughters, Mrs. Hodgeson and Miss Annie, all of whom are living here.

The remains were shipped east for interment accompanied by Mr. Edward and Miss Annie Simpson. Mrs. Simpson was a aunt of Mrs. J. E. Teskey.

The Review joins their many

friends and relatives in extending

their sympathy to the bereaved

family.

Shoes! Shoes! Shoes!
